

To our Japanese friends

Polar Latitudes is delighted to be working with Trywell International of Tokyo. Mrs, Kazue Tajima, President of Trywell, and all of us at Polar Latitudes share a complete dedication to providing best in class polar experiences. In Japan we work only with Trywell for this reason, and we look forward to many years of successful business together.

Polar Latitudes is a company formed by industry professionals with the goal of creating and delivering superior Antarctic voyages, specifically designed with passenger expectations in mind. Our international expedition team members are dedicated to your experiences with photography, wildlife viewing, and overall exploration.

We take great care to provide superior comfort and safety on board our ship, Sea Explorer. Sea Explorer offers 114 suites all with private accommodations, TV and DVD players, and mini refrigerators. On our top decks we offer suites with private balconies and butler service.

We are pleased to provide daily changing breakfast, lunch, and dinner menus with an emphasis on providing well balanced and nutritional cuisine. Our team of international chefs pride themselves on creativity, and you are sure to experience a variety of interesting dishes throughout your voyage.

We look forward to welcoming you on board, and we appreciate your interest in Polar Latitudes.

Best regards,

John McKeon  
President  
Polar Latitudes
